

Special offer – Simplex Composite net protector

Protect your aft seal against dirt, fishing nets and lines

- Replace the standard aft seal cover ring with a GRP composite housing ring including a dirt and net protection ring
- Combinable with all housing materials (e.g. bronze, cast iron)
- Protective ring made from polyurethane, secured with a non-corrosive spring that synchronously rotates with the liner
- Abrasion-proof
- Optimal friction behaviour

Technical specifications

- For seal sizes 125 – 1 090
- For all Simplex SC2 and SC3 seal types
- Fitted in front of sealing ring #1 (or #0 at the Simplex Airspace)
- For retrofit – sufficient installation length provided

Installation

- Installation length for cover ring (L2) is extended by 4 to 10 mm because of the protective ring groove
- No need to withdraw the propeller
- Mounting hole pattern remains the same
- Installation by customer or Simplex service team
- Under water conversion possible

Special price - Complete composite conversion kit "Simplex Net protector" (cover ring, protective ring, retaining spring)

Size 125 – 220	1,300.00 Euro
Size 240 – 420	1,900.00 Euro
Size 450 – 670	2,900.00 Euro
Size 710 – 900	3,500.00 Euro
